Summary

Computer Science undergraduate with strong foundations in C, C++, Python, SQL, Data Structures & Algorithms, and Data Analysis. Seeking an internship opportunity in any technical domain — including software development, data science, networking, or IT — to apply my skills, learn from real-world projects, and contribute effectively to a team.

Education

Noida Institute of Engineering and Technology	Greater Noida, IN
Bachelor of Technology in Computer Science & Engineering (Data Science) CGPA : 7.56(till 4th sem)	2024 – 2028
RAJ ENGLISH SCHOOL	Varanasi, IN
Class XII (CBSE) PCM:71.4%	2024
RAJ ENGLISH SCHOOL	Varanasi, IN
Class X (CBSE) PCM:88%	2022

Technical Skills

Languages: C, C++, Python, SQL

Data Analysis & Visualization: Power BI, Tableau, Excel

Databases: MySQL, PostgreSQL

Core CS: Data Structures, Algorithms, DBMS, OOP, Operating Systems

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Projects

Vector Database & RAG System GitHub Repo

- Built a Retrieval-Augmented Generation system for answering questions using custom documents.
- Implemented document processing, embeddings, vector search, and context-based responses.
- Worked with Python, vector databases, and Large Language Model APIs.

Customer Behavior Analysis GitHub Repo

- Cleaned and analyzed customer data using Python, Pandas & EDA to identify purchasing patterns.
- Used SQL for KPI analysis, customer segmentation, and business insights.
- Built an interactive Power BI dashboard to visualize sales, customer, and product performance.

Packet Analyzer & Deep Packet Inspection GitHub Repo

- Developed a network packet analysis system to capture and inspect network traffic.
- Analyzed packet information including protocols, IP addresses, ports, and payload data.
- Applied networking concepts and packet inspection techniques.

Data Structures & Algorithms

- Solved 150+ LeetCode problems on Arrays, Strings, Linked Lists, Binary Search, Trees, and Recursion.
- Applied techniques including Two Pointers, Sliding Window, Hashing, and Binary Search.
- Actively practicing Data Structures & Algorithms on LeetCode and GeeksforGeeks.

Certifications

- Data Analytics Job Simulation(Deloitte - Forage)
- Introduction to Cybersecurity(Cisco Networking Academy)
